DENTAL HYGIENISTS

Effective July 1, 2004 Missouri Medicaid/MC+ will cover certain dental services delivered by a duly registered and currently licensed dental hygienist who has been in practice **at least three years and who is practicing in a public health setting.** A dental hygienist who meets these requirements may provide fluoride treatments, teeth cleaning, and sealants, if appropriate, to Medicaid/MC+ eligible children ages 0-20 without the supervision of a dentist, as authorized by section 332.311, RSMo.

A Missouri Medicaid enrolled dental hygienist will only be allowed to practice in a public health setting. In accordance with 19 CSR 10-4.040, a "public health setting" is defined as a location where dental services authorized by section 332.311, RSMo are performed so long as the delivery of services are sponsored by a governmental health entity which includes:

- (A) Department of Health and Senior Services;
- (B) A county health department;
- (C) A city health department operating under a city charter;
- (D) A combined city/county health department; or
- (E) A nonprofit community health center qualified as exempt from a federal taxation under section 501(c)(3) of the *Internal Revenue Code* including a community health center that receives funding authorized by sections 329, 330, and 340 of the United States Public Health Services Act.

DENTAL HYGIENIST ENROLLMENT INFORMATION

A dental hygienist must be licensed for at least three (3) years and who is practicing in a public health setting. The dental hygienist must enroll using the payment name and tax ID of the public health entity. Each dental hygienist must enroll individually and bill under their individual provider number. Dental hygienists must apply for a separate provider number for each public health entity at which they provide Medicaid/MC+ services. Each application and its required attachments must be faxed separately.
